Professional Headline

Backend Developer (Django & REST APIs) | API Integrations | Admin Dashboards | Database Management

Professional Summary

Backend-focused Django developer with 3+ years of hands-on experience building and deploying secure, scalable web applications. Skilled in RESTful API design, authentication systems, and database optimization. Adept at transforming client needs into efficient, maintainable solutions.

Core Technical Skills

Languages: Python, JavaScript, HTML, CSS
Frameworks: Django, Django REST Framework, Bootstrap, Tailwind CSS, Alpine.js
Databases: PostgreSQL, MySQL, SQLite
Tools & DevOps: Git, GitHub, Docker, CI/CD, Postman
Concepts: REST API Design, Authentication (JWT & Session), Automated Testing (Pytest), Performance Tuning

Professional Experience

- Backend Developer Intern - Codveda Technologies

Remote | October 2025 - Present
- Selected for the Codveda Technologies Internship Program to enhance backend development and collaborative project-building skills.
- Working on real-world projects involving REST API design, database management, and automation workflows.
- Strengthening technical expertise in Python, Django, Django REST Framework, and integration of APIs into scalable systems.

- Backend Developer - Codexmingle (Coding Community)

Remote | October 2025 - Present
- Contribute to open-source Django projects and backend system design for community platforms.
- Mentor junior developers and collaborate on improving project architecture and deployment workflows.

- Freelance Web Developer - Fiverr

Remote | May 2021 - Present

- Delivered 10+ Django full-stack applications with authentication, CRUD, and payment features.
- Built and optimized REST APIs using Django REST Framework, reducing response times by 35%.
- Created responsive admin dashboards and deployed production-ready apps with Docker and cloud hosting.

Selected Projects

- TaskManager API (REST Backend) - GitHub: https://github.com/PeterOlayemi/taskmanager_api
Designed a task management backend with JWT authentication and CRUD operations for integration with any frontend.

- TrackIt (Expense Tracker App) - GitHub: https://github.com/PeterOlayemi/django_expense_tracker
Developed a full-stack expense tracking system with user authentication, budget analytics, and data visualization.

- InkWave (Blog Platform) - GitHub: https://github.com/PeterOlayemi/django_blog
Built a blogging platform with rich text editor, category filters, and RESTful endpoints for posts and comments.

Education

B.Tech (Bachelor of Technology) - Computer Science and Technology (Ongoing)
Ladoke Akintola University of Technology (LAUTECH), Oyo State | 2022 - Present

Certifications

- Postman API Fundamentals Student Expert - Postman (Sept 2025)
- Python Essential Training - LinkedIn Learning (Aug 2022)
- Soft Skills Training - Jobberman (May 2022)

Soft Skills

Analytical Problem-Solving · Clear Communication · Remote Collaboration · Continuous Learning · Adaptability
